

Section

We start with "Section". A section is an area on a page (or pages).

pk	name	slug
1	Body	body
2	Footer	footer

Template

A template defines the layout for a page

pk	name	template_name
1	Home	example/home.html
2	Information	example/info.html

TemplateSection

A list of sections which will appear on pages using this template.

pk	template_id	section_id
1	1	1
2	1	2

Page

Pages link to a **Template**. A template can be used by more than one page.

pk	name	slug	order	is_home	template
1	Home	home	1	Y	1
2	Information	information	2	N	2

PageSection

Sections created for this page (if the section is empty, there will be none).

pk	page_id	section_id
1	1	1
2	1	2

Blocks (are defined in their own apps e.g. "compose" app)

pk	page_section	order
1	1	1
2	1	2
3	1	3
4	1	4
5	2	1

Content (is defined in it's own app e.g. "compose" app)

pk	block	moderate_state	title
1	1	Published	Apple
2	1	Pending	Green Apple
3	2	Published	Banana
4	3	Removed	Orange
5	4	Published	Raspberry
6	4	Pending	British Raspberry
7	4	Removed	Raspberry Couli
8	5	Published	Fruit Copyright

Page

pk	name	slug	order	is_home
1	Home	home	1	Y
2	Information	information	2	N

Section

pk	name	slug
1	Body	body
2	Footer	footer

PageSection

pk	page_id	section_id
1	1	1
2	1	2

BlockModel

TitleBlock(BlockModel)

pk	page_section	order
1	1	1
2	1	2
3	1	3
4	1	4
5	2	5

ImageBlock(BlockModel)

pk	page_section
1	1

ContentModel

TitleContent(ContentModel)

pk	block	moderate_state	title
1	1	Published	Apple
2	1	Pending	Green Apple
3	2	Published	Banana
4	3	Removed	Orange
5	4	Published	Raspberry
6	4	Pending	British Raspberry
7	4	Removed	Raspberry Couli
8	5	Published	Fruit Copyright

ImageContent(ContentModel)

pk	block	moderate_state	image
1	1	Published	apple.jpg
2	1	Pending	pink-lady.jpg

I think there is always a "Pending" record.
